

Berlin-Mitte | Web development | full time | as of now | permanent contract

# Web developer

## at der Freitag Mediengesellschaft

The weekly German newspaper *der Freitag* is looking for a web developer with solid knowledge of Python and frontend technologies. This is a full-time position beginning May 2024.

At our website, [www.freitag.de](http://www.freitag.de), our online team manages the lifecycle of our newspaper articles. The website is built with the Open Source CMS Plone (python). We also manage a number of other satellite websites built with the Open Source framework Django (python).

The development team uses agile methodologies as a primary organizational tool. We follow Test-Driven Development methodology and use GitLab Continuous Integration to ensure the stability and quality of a system before proceeding to production.

### Your role:

- you will bring your strengths as part of a development team, helping to improve our platform

### Your profile:

- web/full stack developer
- fluency in Python (fluency in JavaScript a plus)
- a desire to learn new technologies and make a difference
- experience with Python and JavaScript tooling (e.g. pip, pnpm, webpack/vite, typescript)
- experience with responsive design, HTML5, CSS3, SCSS, BEM a plus
- experience working within small- or medium-sized teams
- experience with django and/or Plone a plus
- fluency in reading/writing/speaking English
- a current resident of Berlin or a willingness to relocate there

### Valuable attributes:

- fluency in German
- experience with Plone/django
- experience with Open Source projects/development (OR: projects & development)
- experience in working with agile methodologies
- experience in CI/CD

### We offer:

- a full-time position working with a multi-disciplinary team in the heart of Berlin
- flexible working hours

### Interested?

We would love to hear from you. Reach us at [dev@freitag.de](mailto:dev@freitag.de)

Your contact is Gil Forcada
